

# Alejandro Arce Gonzalez

## SOFTWARE ENGINEER

I am a software engineer with an analytical and problem-solving mindset. I excel at being organized, proactive, and adaptable, always seeking efficient and creative solutions. I enjoy working in teams, constantly learning, and facing challenges to add value to each project. I am excited by innovation and the opportunity to continue growing professionally.

## WORK EXPERIENCE

### Professional Practice FERRETERIA JRV

Web Developer

2022 -2023

- Designed and developed attractive and functional user interfaces using HTML, CSS, and JavaScript.
- Implemented improvements in user experience (UX/UI) based on testing and user feedback.
- Used React.js/Vue.js/Angular (depending on the tech stack) to create dynamic and reusable components.
- Optimized website performance, reducing load times and improving accessibility.

### Web Development for Local Clients

Freelance Web Developer

January 2024 – Present

- Fully developed 4 custom websites for local businesses, tailored to their commercial and online presence needs.
- Technologies used: HTML, CSS, JavaScript, Python, C#, .NET
- Responsive design, performance optimization, and user experience-focused approach.
- Implemented contact forms, product catalogs, admin panels, and custom features based on each business's requirements.
